

Welcome Parents

Grade 4

Virtual Curriculum Night
Mrs. Getchell and Ms. Nahirny

2020-2021

Our goals:

The Common Core State Standards provide a consistent, clear understanding of what students are expected to learn, so teachers and parents know what they need to do to help them and prepare them by setting clear and realistic goals for success.

Our job as teachers is to build the foundation in providing our young students with a high-quality education that will prepare them for success in college and work.

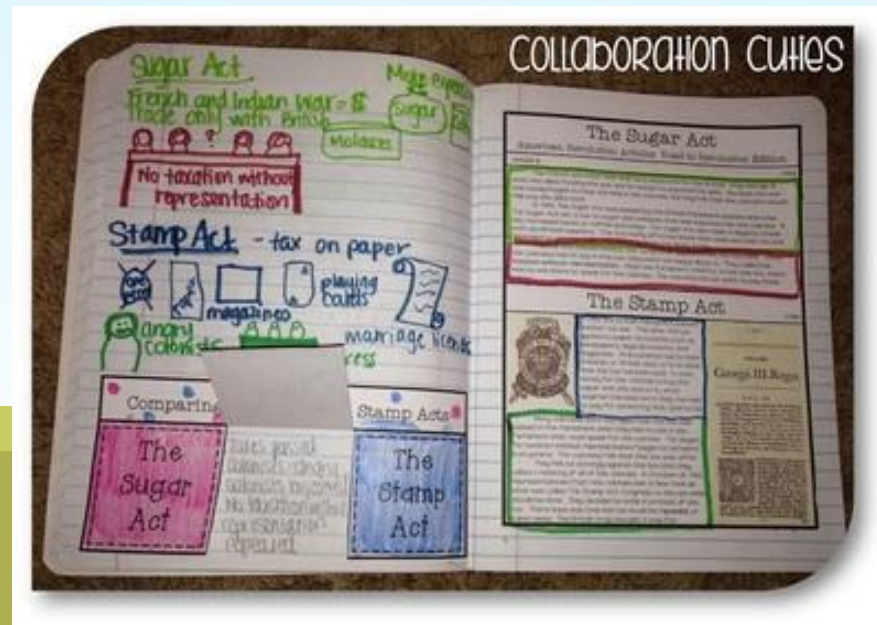

We will create a learning environment that fosters deep thinking, engagement of students, integration of subject areas, and problem-based learning experiences.

Interactive Student Notebooks

Students will use interactive student notebooks for the following subject areas: Language Arts/Social Studies, Mathematics and Science.

ISN's provide a hands-on approach to learning and keep the students engaged.

Technology Integration

Technology is used to create a rich and engaging learning environment that supports student collaboration.

- As teachers, we use real-time data to make instructional decisions for each student..
- Technology in the classroom:
 - Whole group instruction, collaboration, and discussions
 - Small groups instruction and practice
 - Learning centers
 - Individual support – skill remediation and extension
 - Skill practice
 - Reviews and quizzes
 - Google Classroom Access for All Students

Grade 4 – Elementary Mathematics

“Mathematics is not about numbers, equations, computations, or algorithms. It is about understanding.” - William Paul Thurston
